# Hylan Glad to Give Up \$10,000 For Home Rule

**Didn't Expect Pay Increase Anyway, but He Insists Miller Misread Charter in Vetoing Salary Grabs**

**Moral Victory His Solace**

**Invites Governor to Extend Principle to Other Legislation That Affects City**

Mayor Hylan in a statement issued yesterday declared that he bore no ill will toward the Mayor Miller for vetoing the bill, which the Mayor approved, increasing the salaries of the Mayor and Comptroller from \$15,000 to \$25,000 and the President of the Board of Aldermen from \$7,500 to \$15,000. He said he was glad to see the Governor was beginning to realize "there is something in the principle of home rule," but he contended that the Governor was wrong in saying the increases should be made by the Board of Estimate and not the Legislature.

The Mayor vetoed a similar bill last year on the eve of election, but put his approval on the measure when it again came before him recently.

"The Governor knows," said the Mayor, "that Section 55 of the charter does not permit the members of the present Board of Estimate to increase their own current salaries, which charter provision is sound in principle, and consequently any increase in salary to any member of the present Board must be by legislative action at Albany. He knows that the Mayor-Comptroller salary bill from all the bills which I vetoed, which latter were either had or could have increased salaries if applications were made to it."

The Governor specifically pointed out that the Board of Estimate had no power to increase the pay of members during their term of office, and what ever advances the board did make would have to apply to their successors.

"I am glad to see that the Governor is beginning to realize that there is something in the principle of home rule," said the Mayor, "and what realize his error in not applying it to the vastly more important transit and Port Authority matters and his error in not turning a deaf ear to the interests that include him to violate home rule on those subjects. It is to be regretted that the Governor did not apply this same principle of home rule to the salaries of the Mayor-Comptroller salary bill from all the bills which I vetoed, which latter were either had or could have increased salaries if applications were made to it."

Does it fatigue you unduly to wind your phonograph, and do you simply take to rise and take the needle off when the record comes to an end? If so, take heart, for the newest thing in talking machines, demonstrated last night in its inventor, does everything you could think of, except eat, of its own sweet accord.

The maker is James T. Sibbey. The demonstration last night at the offices of the South American Corporation, 61 West Fifty-first Street, was merely the start of a five-day marathon for this automatic paragon. It is run by six dry cells (no winding for the weary), and the same batteries furnish it with self-starting energy (no starting for the slothful). Some unnamed electrical expert had intimated to Mr. Sibbey that he didn't believe that six little cells could do all this work and still hold out for 2,000 rounds of records, as guaranteed in the contract. Hence the endurance test, and if all goes well the machine will start and run and seal last evening at 8:28 will be opened and stopped at 8:28 p. m. next Tuesday.

# Hylan Just the Goat On That Salary Bill

From a Staff Correspondent

ALBANY, April 13.—Mayor Hylan was inveigled, bamboozled and horns-woggled into signing the bill, vetoed yesterday by the Governor, which would have added \$10,000 to his \$15,000 salary, a friend of the Mayor said to-day. The Mayor never did want the measure passed, said his friend, but a lot of his enemies got together and put it across on him.

"You see," said the Mayor's friend, "the Mayor did not want the bill last year, but this year the people who have been his enemies, Comptroller Craig and the Citizens Union and such people, got behind it and put it through the Legislature, and then prevailed upon him to sign it. The whole thing was very unfortunate. It was really Comptroller Craig's bill. The Mayor never wanted it."
